ROBOTICS
HOLIDAY
CAMP

Available Session

- Full holiday Camp: June 25 – August 25 (250 USD)

Camp Schedule

- Morning Group:
Monday – Wednesday – Friday |
9:00 AM – 12:00 PM

Certification

Every child who participates in the Tech4School Robotics Holiday Camp will receive an official certificate of participation at the end of the program.

At Tech4School, kids discover robotics through games, fun challenges, interactive missions, coding activities, and exciting creative projects designed for every age group.

TECH4SCHOOL

Ages 6–8 | Little Explorers

- Discover fun educational robots
- Coding and logic games
- Creative building activities
- Robot races and mini challenges
- Teamwork and imagination activities

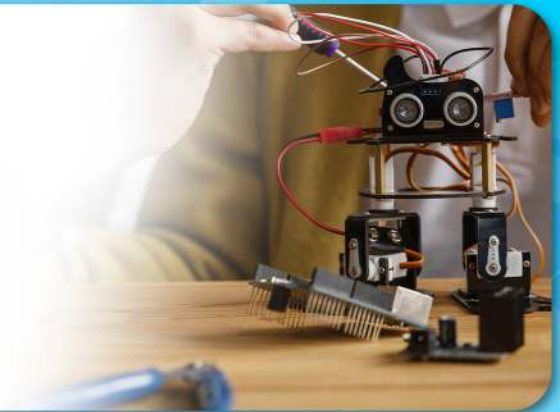

Tools: Tale-Bot • Dash Robot • LEGO • Scratch Junior

Ages 9–11 | Young Inventors

- Build your own robots
- Learn beginner coding
- Create robotic projects
- Mini competitions and fun challenges
- Problem-solving through play

Tools: Scratch • mBot • LEGO EV3

Ages 12–14 | Future Creators

- Program smart robots
- Explore sensors and electronics
- Create innovative projects
- Interactive systems and automation
- Exciting robotics missions and challenges

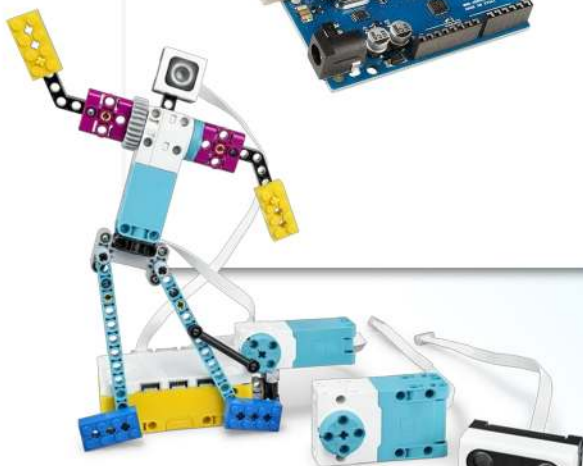

Tools: Arduino • ESP32 • Python Débutant

Ages 15–17 | Tech Leaders

- Advanced robotics projects
- Introduction to Artificial Intelligence
- Innovation and teamwork
- Prototype creation
- Leadership and project presentation skills

Tools: Arduino • Python • Introduction à l'IA
